

# Security awareness week

**COMING SOON SEPTEMBER 25–29!!!**

## **Information Security Awareness Week**

□ **Safeguard September: Level up with security best practices and exciting contests!** □

## **HELP US TO SPREAD SECURITY AWARE CULTURE:**

As we prepare to dive into the beginning of fall, we are excited to unveil a series of events, which includes engaging contests, webinars, games and fun learning videos.

Billtrust's continued growth and high volume of customer's sensitive and payment data make it a prime target for cybercriminals due to the potential for financial gain. A data breach could lead to significant financial loss, costly legal actions, damage to our reputation and trust among our customers.

Your participation is integral to our collective success in this endeavor by recognizing and responding to phishing, malware, and other cyber threats. Please email [security@billtrust.com](mailto:security@billtrust.com) in case of any questions.

Together, we'll reinforce the importance of security - as - Sec\_rity is incomplete without "U". Look forward to sharing more details in the coming weeks!

**\$EC\_R1TY**

is incomplete  
without **U**

**Thank you for your support in  
keeping Billtrust safe!**
